

BUILT-IN REFRIGERATORS

SAVOR THE PERFORMANCE.™

FRESH INSPIRATION

If your credo of culinary excellence includes the very freshest ingredients, this is your built-in refrigerator. It's designed to deliver the ultimate in storage and food preservation, maintaining peak flavor for unforgettable results. A specially designed refrigeration system offers precise temperatures so frozen desserts stay frozen while vegetables chill to ideal crispness. You'll enjoy our convenience features as well, like adjustable door bins that give you the space you need for a variety of items and spill-proof glass shelves that help contain accidental overflows. Our Ultra-Quiet sound package isolates and minimizes refrigerator noise, bringing peace to your kitchen. And like all Jade® equipment, our built-in refrigerators feature commercial construction with durable steel-lined interiors plus your choice of stainless steel exteriors or custom panels that integrate into your cabinetry. All for one goal: to give you the freshest, most delicious flavors possible.

JADE™ FRAMED AND OVERLAY REFRIGERATORS ACCEPT A VARIETY OF CUSTOM PANELS, INTEGRATING BEAUTIFULLY INTO THE SURROUNDING CABINETRY.

OUR OVERLAY REFRIGERATORS LET YOU CHOOSE YOUR OWN CUSTOM HANDLES FOR A PERFECT MATCH WITH YOUR CABINET HARDWARE.

MAKE IT YOUR OWN

The finest meals demand beautiful presentation. A carefully placed garnish. Delicate designs traced in sauce across a gleaming plate. Bring that same attention to detail to your kitchen with Jade™ built-in framed and custom-overlay refrigerators. Offering the same performance features of our traditional stainless steel models, framed and custom-overlay designs allow you to choose custom exterior panels that are the perfect complement to your kitchen cabinetry. Framed models feature brushed-silver handles and matching brushed-silver frames that accept a variety of custom panels, while overlay models accept full-overlay custom panels and custom handles of your choosing for a completely integrated look.

WHEN YOUR CULINARY IMAGINATION HAS NO LIMITS, NEITHER SHOULD YOUR REFRIGERATOR.

Jade™ refrigerators offer up to 30.7 cubic feet of storage space – enough for all the ingredients your heart desires. The ice and water dispenser provides delicious filtered water and cubed or crushed ice on demand. And the Professional Temperature Management™ System combines digital touch-pad controls and OptiFresh™ drawers. It's the ultimate in temperature control with a variable-speed compressor, specially designed airflow patterns and an adaptive, preemptive defrost system for a refrigerator that stays true to the temperature you choose.
